

Camera::applyZoom

```
graph LR; A[Camera::applyZoom] --> B[Transformable::scale]; B --> B;
```

The diagram illustrates a sequence of operations. On the left, a white rectangular box with a black border contains the text 'Camera::applyZoom'. A straight blue arrow points from the right side of this box to the left side of a second box on the right. This second box is gray with a black border and contains the text 'Transformable::scale'. Above the gray box, a curved blue arrow starts from the top edge, arches upwards and to the right, and then points down to the top edge of the gray box, indicating a self-loop or a recursive call.

Transformable::scale
